## SCUFF RESISTANT PAINT

HIGH-PERFORMANCE COATING  
WITH MAXIMUM RESISTANCE TO SCRATCHES AND MARKS

## GUARDIAN SUPERIOR QUALITY

**GUARDIAN** is the result of a long process of research, investigation and development, culminating in an innovative **scratch and mark resistant formula for maximum durability and minimum maintenance.**

Constant wear and tear in high-traffic environments such as hospitals, schools, gyms, offices or commercial spaces leave marks on a daily basis, forcing surfaces to be cleaned frequently, often with abrasive cleaning products.

However, cleaning and scrubbing are mechanical processes that not only remove the marks but, in most cases, wear down the paint film, ultimately deteriorating it. Products recommended for high-traffic areas are often subject to "burnishing", an increase in gloss, creating an uneven appearance and leading to a need for repainting. Closure for maintenance is expensive and, in most cases, is highly inadvisable.

**GUARDIAN** responds to the need to preserve high-traffic environments by reducing wall maintenance requirements, avoiding a need for continuous touch-ups and repainting.

**GUARDIAN** is a semi-matt coating with an extraordinary level of washability, without leaving gloss marks, keeping walls clean and in perfect condition for longer
